- Does this facility specialize in a specific type of repairs? Yes No N/A
- To the best of your knowledge, this facility is:
 LGBT owned LGBT friendly LGBT supportive Not LGBT friendly Unknown

SUMMARY OF EXPERIENCE

Please give a brief summary of your experience with the facility you've described above. What type of work were you having done? Were the rates and time frame reasonable? Was the staff knowledgeable and experienced with your vehicle? Did they "go the extra mile" to overcome obstacles they encountered as they worked on your vehicle?

Catherine had been to this shop before. A slow leak for this transmission is not unusual. However, she peed all over the floor this summer and would not hold fluid. She had to be towed. Don found a pen point size hole in the transmission pan. I think she scraped when I moved her in and out of my extra garages. the incline is pretty steep. Don checked everything out, welded the pan and total charge was only \$75. I highly recommend this facility. Don is probably in his seventies so he knows older cars. But I dont think he is limited to only old cars. I got his name from someone in SACK or the Caddy club, but dont recall who.
